BACK TO SCHOOL SAFETY

As summer draws to a close, back-to-school begins the NSC.org reminds us that School days bring congestion: School buses are picking up their passengers, kids on bikes are hurrying to get to school before the bell rings, harried parents are trying to drop their kids off before work. It's never more important for drivers to slow down and pay attention than when kids are present – especially before and after school. Know drop off procedures. Share the road with young pedestrians, bicyclists and buses.

WATER CONSERVATION

We understand that it has been hot, windy, dry and that your lawns are looking parched, but that is normal in a desert, and they will come back. Here are a few water saving ideas to try at home:

- Only do full loads of laundry to maximize your efficiency.
- Water brown spots in your lawn with a hose instead of increasing the irrigation time on your timer.
- Place children's water toys on any dry spots in your lawn.
- Instead of washing your car in the street or driveway, park it on the lawn where it won't go to waste.
- Take the pets outside to be bathed, pick a dry spot in the lawn to wash them.
